## INDEX TO VOLUME 16

### *Subjects*

- Abdominal disorders, ED diagnosis, elderly patients**, 357-362  
**Abdomen, lower right quadrant, CT appearance of appendicitis**, 26-33  
**Abdominal aortic aneurysm, ruptured, atypical presentation (letter)**, 438  
**Abdominal pain, Takayasu's arteritis (letter)**, 96-98  
**Abdominal trauma, blunt**  
 CT in the ED, 338-342  
 retroperitoneal organ injury, CT value in, 225-227  
**Acyclovir**  
 in disseminated herpes simplex, neonate, 376-378  
 oral administration, neutropenia and thrombocytopenia associated with, 396-398  
**Adolescents, implementing means restriction education for suicide, urban EDs**, 257-261  
**Adrenergic beta-antagonists, intravenous, in acute myocardial infarction**, editorial 720-721, 623-626  
**Aeromedical transport team, rapid sequence induction for intubation**, 598-602  
**Aging**  
 abdominal disorders in, ED diagnosis, 357-362  
 differences in diagnoses, elderly population, 43-48  
**Agitation, severe, hypothermia and, ibuprofen overdose (letter)**, 549-550  
**Air bag, deployment, hyphema, pediatric trauma patient (letter)**, 102-103  
**Air embolism, portable quantitative capnometer, prehospital care**, 399-400  
**Air medical transport, airway intubation, success rate using neuromuscular blockers**, 125-127  
**Air travel, barotrauma during, decongestant prevention of, comparison**, 262-264  
**Airway**  
 artificial, oral intubation with Endotrol endotracheal tube, 276-278  
 catastrophic events, monitoring capnography, pulse oximetry, and vital signs in, 350-352  
 critical management, intubation and, cardiac arrest as sequelae of, 609-612  
 edema, after household bleach ingestion, 514-516  
 emergency care, tracheostomy patients, 681-685  
 intubation, success rate with neuromuscular blocking agents, 125-127  
 management, large-diameter suction tubing and evacuation time in, 242-244  
 obstruction, spontaneous bilateral arytenoid hematoma, warfarin patient, 674-676  
 upper, emergency, caustic ingestion of bleach, 514-516
- Alcohol**  
 acute intoxication, repeated ambulance use by patients with, 141-144  
 beverages, proof and flammability (letter), 544-545  
 blood content, trauma related to, rural trauma center, 228-231  
 ketoacidosis, reversible myocardial dysfunction in, 371-373  
**Allergic alveolitis, shortness of breath, pet cocktail**, 285-288  
**Allergic reaction, anaphylaxis, zinc ointment**, 512-513  
**Alveolar-arterial oxygen gradient, assessment of pulmonary embolism**, 333-337  
**Amaurosis fugax, Takayasu's arteritis presenting as**, 185-187  
**Ambulance, repeated use, three chronic conditions**, 141-144  
**American Association of Poison Control Centers, Toxic Exposure Surveillance System, 1997 Annual Report**, 443-497  
**Aminophylline, intravenous, versus nebulized fenoterol, acute asthma (letter)**, 95  
**Aminotransferase, levels, after cresol poisoning**, 667-669  
**Amlodipine, overdose, prolonged calcium channel blocker toxicity**, 527-528  
**Amyloidosis, splenic rupture, in continuous ambulatory peritoneal dialysis**, 279-280  
**Analgesia, sublingual hyoscymine sulfate, intravenous ketorolac tromethamine and, relief of renal colic**, 557-560  
**Analgescics, pain control, after discharge from ED**, 705-707  
**Anaphylaxis, topical bacitracin zinc ointment**, 512-513  
**Ancillary tests, costs of, impact of residents on**, 245-248  
**Anemia, severe, unrecognized, children with respiratory distress**, 386-389  
**Anesthesia, intradermal, temperature and pH adjustments of bupivacaine**, 117-120  
**Anesthetics**  
 local  
 bupivacaine, temperature and pH adjustment effects, 117-120  
 infiltration, pain, reduction of (letter), 617  
 lidocaine administration, pain reduction through buffering and warming, 353-356  
 topical, prilocaine-phenylephrine, bupivacaine-phenylephrine and, lacerations, 121-124  
**Aneurysm, internal carotid artery, traumatic dissection, blunt softball injuries**, 179-182  
**Angina, unstable, high-dose nitrates in treatment of**, 219-224  
**Angiomyolipoma, renal, ruptured, presenting as renal colic**, 658-661  
**Ankle, injuries, Ottawa Ankle Rules, adults in the ED**, 564-576  
**Antacid, topical suspension, treatment of mace dermatitis (letter)**, 613-614  
**Antibiotics, parenteral, overuse in urban ED**, 343-345

- Anticholinergic poisoning  
adulterated intranasal cocaine, 517-520  
treatment with physostigmine, 505-507
- Anticoagulation, warfarin, spontaneous bilateral arytenoid hematoma in, 674-676
- Aortic dissection, acute, painless, presenting as left lower extremity numbness, 49-51
- Appendicitis  
migratory pain in (letter), 437-438  
recurrent and chronic, CT appearance of, 26-33  
stump, diagnosed by CT, 309-311
- Appendix, CT appearance of appendicitis, 26-33
- Arm, pain, spiral fracture in humerus of ball thrower, 306-308
- Arytenoid cartilage, hematoma, spontaneous bilateral, warfarin patient, 674-676
- Ascites, pseudo-Meigs's syndrome, 404-405
- Asphyxia, cardiac arrest, mild protective and resuscitative hypothermia in, rat, 17-25
- Asthma  
acute  
early corticosteroids in (letter), 436  
in the ED, admit or discharge, 69-75  
nebulized fenoterol versus IV aminophylline in treatment (letter), 95  
acute exacerbation, peak expiratory flow rate and speaking time in, 572-575  
bronchospasm in, nebulized glucagon in treatment of, 272-275  
severe, salbutamol treatment, ED, 637-642
- Asystole, seizure-related bradycardia and, in epilepsy, 582-584
- Atlanto-occipital dislocation, traumatic, unrecognized, 406-408
- Auscultation, percussion technique, diagnosis of hip fractures, 173-176
- Authorship, multiple, 708-709
- Axillary artery, injury, after proximal fracture of the humerus, 154-156
- Bacitracin zinc ointment, topical, anaphylaxis to, 512-513
- Bacteremia, occult, febrile children at risk for, decision analysis, 193-207
- Bacteria, aerobic and anaerobic, infection after trauma, 585-591
- Barotrauma, during air travel, decongestant prevention of, comparison, 262-264
- Basilar artery, occlusion, after severe chest and minor head trauma (letter), 614-616
- Benzodiazepines  
overdose  
endotracheal flumazenil administration for antagonism, 170-172  
endotracheal flumazenil administration (letter), 436-437  
severe intoxication, flumazenil infusion in, 238-241
- Benzoyllecgonine, ingestion, seizures and, 529-533
- Bird fancier's lung, shortness of breath, pet cocktail, 285-288
- Bladder, foreign body removal, ultrasound localization (letter), 329-330
- Blindness, acute, after quinine poisoning (letter), 214-215
- Book review, 324
- Bradycardia, seizure-related, asystole and, epilepsy, 582-584
- Bronchitis, emergency care of tracheostomy, 681-685
- Bronchospasm  
acute asthma, in the ED, admit or discharge, 69-75  
in asthma, nebulized glucagon in treatment of, 272-275  
single-breath counting for assessment, ED (letter), 100-101
- Bush thoracotomy, Papua New Guinea, 717-719
- Bupivacaine  
prilocaine comparison, laceration repair, 121-124  
temperature and pH adjustments of, effects in intradermal anesthesia, 117-120
- Burns, air bag-related, lower extremity, children (letter), 438-440
- Calcium, serum electrolyte disorders, algorithms for diagnosis, 76-84
- Calcium channel blockers, toxicity, amlodipine overdose, 527-528
- Capnometry  
portable quantitative, 399-400  
pulse oximetry and, detection of airway mishaps, 350-352  
semiquantitative, carbon dioxide indicator, 677-680
- Cardiac arrest  
asphyxial, mild protective and resuscitative hypothermia in, rat, 17-25  
out-of-hospital, mechanical versus manual chest compressions, 289-292
- prehospital  
Japan, factors for survival, 209-213  
standard of care, editorial 325-326, 315-319  
response times and outcomes, Las Vegas casinos, 249-253  
sequelae of critical airway management and intubation, 609-612  
witnessed by EMS personnel, epidemiology and outcome, 12-16
- Cardiopulmonary resuscitation  
asphyxial cardiac arrest, rat, 17-25  
bystander, cardiac arrest, Japan, factors for survival, 209-213  
classes, skill mastery in, 653-657  
mechanical versus manual, out-of-hospital, 289-292  
outcome, cardiac arrest in Las Vegas casinos, 249-253
- Cardiovascular sequelae, delayed, from Kawasaki syndrome, 579-581
- Carditis, Lyme disease, presentation in ED, 265-269
- Carotid artery, internal, dissection, from vomiting, 669-671
- Carotid artery dissection, traumatic internal, blunt softball injuries, 179-182
- Catheterization  
ultrasound-assisted, internal jugular vein, ED, 401-403  
urethral and intravenous, pain (letter), 327
- Caustic ingestion, household bleach, airway edema after, 514-516
- Cellulitis, emergency care of tracheostomy, 681-685
- Central nervous system, infection, intracerebral hemorrhage and coincident meningitis, unresponsiveness adult, 576-578
- Cerebral ischemia, asphyxial cardiac arrest, mild hypothermia for, rat, 17-25
- Cerebral protection, asphyxial cardiac arrest, mild hypothermia for, rat, 17-25
- Cerebrovascular disease, carotid artery dissection, blunt softball injuries, 179-182
- Cervical spine  
atlanto-occipital dislocation, unrecognized, 406-408  
fractures and dislocations, prevertebral soft tissue measurement at C3 for, 346-349
- Charcoal, activated, gastrointestinal decontamination, toxic ingestions, EMS, 114-116
- Chemotherapy, pleural effusion, unusual presentation in the ED, 163-165
- Chest compressions. *see* Cardiopulmonary resuscitation
- Chest pain  
acute myocardial infarction, gender differences in symptoms, 363-366  
left ventricular hypertrophy and, 692-696
- Chiropractic manipulation, vertebral artery dissection after (letter), 619-620
- Chlamydia trachomatis*, infections, diagnosis in the ED, 157-159
- Chloral hydrate, overdose, acute gastric perforation in (letter), 545-546
- Chlorzoxazone, overdose, coma and, reversal with flumazenil, 393-395
- Chronotoxicology, cocaine, urban ED, 568-571
- Circadian rhythms  
adaptation to night shift, melatonin effects, 367-370  
assaults from penetrating trauma, State of Illinois, 553-556

- cocaine chronotoxicology, urban ED, 568-571  
time series analysis, ambulance run volume, 232-237
- Cocaine  
abuse, chronotoxicology, urban ED, 568-571  
adulterated intranasal, anticholinergic poisoning with, 517-520  
multiple seizures induced by, 529-533  
sniffing, spontaneous pneumothorax in (letter), 546-548
- Colchicine, overdose, fatal, 603-608
- Colorimetric capnometry, carbon dioxide indicator, 677-680
- Colposcopy, evaluation of adult sexual assault victim, 183-184
- Coma, chlorzoxazone overdose, reversal with flumazenil, 393-395
- Computed tomography  
blunt abdominal trauma, in the ED, 338-342  
diagnosis of stump appendicitis, 309-311  
mycotic aneurysm, subclavian artery, 714-716  
recurrent and chronic appendicitis, 26-33  
retroperitoneal organ injury, blunt abdominal trauma, 225-227
- Continuing education, implementing means restriction education for suicide, urban EDs, 257-261
- Coronary artery, left, anomalous, myocardial infarction in children and, 296-303
- Corticosteroids, early administration, acute asthma (letter), 436
- Cost-effectiveness, nebulized racemic epinephrine, treatment of croup, 87-89
- Cough, psychogenic (letter), 617-618
- Coumadin, skin necrosis induced by, 541-543
- Crack. *see* Cocaine
- Creatine kinase, serum indicator of myocardial infarction, exercise-induced muscle injury, 107-113
- Cresol, poisoning, aminotransferase level increases after, 667-669
- Critical care, provided in urban ED, 56-59
- Croup, nebulized racemic epinephrine in treatment, cost-effectiveness of, 87-89
- CT. *see* Computed tomography
- Cystitis, emphysematous, unusual presentation, 664-666
- Data pooling, ankle injuries, Ottawa Ankle Rules, adults in the ED, 564-576
- Death, pediatric, coping the ED, parental experience, 67-68
- Decision analysis, revised strategies, febrile children at risk for occult bacteremia, 193-207
- Decision criteria, acute asthma, in the ED, admit or discharge, 69-75
- Decongestants, pseudoephedrine and topical oxymetazoline comparison, during air travel, 262-264
- Defibrillation, automatic external defibrillator, sudden cardiac arrest, editorial, 315-319, 325-326
- Dermatitis, mace, treatment with topical antacid suspension (letter), 613-614
- Diabetes  
acute myocardial infarction and, gender differences in symptoms, 363-366  
emphysematous pyelonephritis in, 166-169
- Diabetes mellitus, emphysematous cystitis, unusual presentation, 664-666
- Diagnosis  
age-related differences, elderly population in the ED, 43-48  
algorithms, serum electrolyte disorders, 76-84  
limited MRI, occult hip fractures, 390-392
- Diagnostic tests  
bedside, sensitivity, specificity, and predictive value (letter), 95  
likelihood ratios (letter), 722-723  
triage nurse and physician ordering of, correlation, ED, 8-11
- Diarrhea, emphysematous cystitis, unusual presentation, 664-666
- Disease surveillance, in the ED, underreporting of gonorrhea, 137-140
- Distracting injuries, after blunt trauma, 145-150
- Diverticulitis, presenting as scrotal pain (letter), 618-619
- Domestic violence  
intimate partner, need for law enforcement, University ED, 60-63  
nonbattering presentations in ED, women, 128-131
- Drug application, intratracheal, colibri carbon dioxide indicator, 677-680
- Drug eruptions, topical fluorescein, periorbital urticaria from, 525-526
- Drug overdose  
benzodiazepines, endotracheal flumazenil administration for antagonism, 170-172  
gastrointestinal decontamination by EMS personnel, 114-116
- Dysrhythmias  
Lyme carditis, presentation in ED, 265-269  
seizure-related bradycardia and asystole, in epilepsy, 582-584
- Earthquake, Northridge, effects on pattern of emergency care, 254-256
- Ergonine, ingestion, seizures and, 529-533
- ED. *see* Emergency department
- Editorials, 325-326, 720-721
- Education  
CPR training, skill mastery in, 653-657  
medical, future of emergency medicine, 710
- Elderly subjects. *see* Aging; Geriatrics
- Electrocardiography  
acute posterior wall myocardial infarction, 409-413  
benign early repolarization, differentiation from ST segment elevation syndromes, 592-597  
cases in, 85-86, 191-192, 312-314, 417-419  
left bundle branch block, acute MI in, 697-700  
myocardial infarction, in children, 296-303
- Electrolytes, serum, disorders, algorithms for diagnosis, 76-84
- Emergency department  
acute asthma in, admit or discharge, 69-75  
asymptomatic hypertension, 701-704  
bronchospasm, single-breath counting for (letter), 100-101  
callbacks in, reduction, quality improvement, 160-162  
chlamydial infections, 157-159  
CT in, blunt abdominal trauma, 338-342  
diagnosis, age-related differences in the elderly, 43-48  
diagnosis of abdominal disorders, elderly subjects, 357-362  
discharge from, pain control after, 705-707  
disease surveillance in, underreporting of gonorrhea, 137-140  
evaluation of the elderly, mini-mental status examination, 686-689  
frequent utilization, patterns, 648-652  
involuntary confinement, psychiatric patients, medicolegal errors in, 631-633  
laceration repair, bupivacaine and prilocaine comparison, 121-124  
Lyme carditis, 265-269
- nonbattering presentations, women in physically abusive relationships, 128-131
- pattern of care  
frequent users, 648-652  
Northridge earthquake effects on, 254-256
- pediatric  
coping with death, 67-68  
weather effects on nature of visits, 374-375
- pharmacoeconomic assessment of midazolam (letter), 616-617
- pleural effusion, unusual presentation, 163-165
- radiography in, evaluation of shoulder pain, 560-563
- self-assessment of acute pain in, comparative study, 132-136
- severe asthma, salbutamol nebulizer treatment, 637-642
- test ordering, correlation between triage nurse and physician, 8-11
- triage classification, routine pulse oximetry measurements in, 5-7
- ultrasound-assisted catheterization in, internal jugular vein, 401-403

- urban  
 cocaine chronotoxicology in, 568-571  
 critical care provided in, 56-59  
 implementing means restriction education for suicide, 257-261  
 overuse of parenteral antibiotics, 343-345  
 volume and severity of use, impact of National Health Insurance on, 92-94
- Emergency medical services**  
 acute MI, intravenous beta-blockers in, editorial, 623-626, 720-721  
 acute myocardial infarction, gender differences in symptoms, 363-366  
 ankle injuries, Ottawa Ankle Rules, adults in the ED, 564-576  
 life-saving technicians, cardiac arrest survival, Japan, 209-213  
 out-of-hospital cardiac arrest, mechanical *versus* manual CPR, 289-292  
 pattern of care, Northridge earthquake effect on, 254-256  
 personnel, witness of cardiac arrest, outcome, 12-16  
 prehospital gastrointestinal decontamination, toxic ingestions, 114-116  
 repeated ambulance use, three chronic conditions, 141-144  
 response times and outcomes, cardiac arrest in Las Vegas casinos, 249-253  
 rural Vietnam, 422-424
- Emergency medicine**  
 future of, 710  
 intimate partner violence, need for law enforcement, University ED, 60-63  
 survey of patients, waiver of informed consent, 90-91
- Emergency medicine literature**, multiple authorship, 708-709
- Emergency medicine physicians**  
 Board-certified, national survey, 1-4  
 correlation with triage nurse and, test ordering in ED, 8-11  
 profiling, information sharing effects on laboratory use, 34-36  
 Emergency medicine residents, impact on ancillary test utilization, 245-248
- EMLA cream, 20-minute, pain reduction in peripheral IV cannulation in ED, 634-636
- Emphysematous cystitis, unusual presentation, 664-666
- Emphysematous pyelonephritis, bilateral, in diabetes, 166-169
- Empyema, bush thoracotomy in Papua New Guinea, 717-719
- Endotracheal intubation, occlusion, after oral intubation with Endotrol tube, 276-278
- Endotracheal tube  
 airway mishaps, monitoring capnography and pulse oximetry in, 350-352  
 flumazenil administration, new route for benzodiazepam antagonism, 170-172
- Epiglottis, spontaneous bilateral arytenoid hematoma, in warfarin patient, 674-676
- Epiglottitis, linguinal abscess mimicking, 414-416
- Epilepsy, seizure-related bradycardia, asystole and, 582-584
- Epinephrine, nebulized racemic, treatment of croup, cost-effectiveness of, 87-89
- Esophageal tube, malposition, colibri carbon dioxide indicator, 677-680
- Esophagus, perforation, complication of nasogastric tube placement, 64-66
- Ethics, research**, waiver of informed consent, survey of emergency medicine patients, 90-91
- Etomidate, sedation, for intubation (letter), 101-102

- Intubation  
airway, success rate with neuromuscular blocking agents, 125-127  
critical airway management, cardiac arrest as sequelae of, 609-612  
etomidate sedation in (letter), 101-102  
intratracheal, Colibri carbon dioxide indicator, 677-680  
nasogastric, esophageal perforation as a complication of, 64-66  
prehospital, patient lying supine on ground (letter), 435  
rapid sequence induction for, aeromedical transport team, 598-602
- Intussusception, after blunt abdominal trauma, 671-673
- Ipecac, gastrointestinal decontamination, toxic ingestions, EMS, 114-116
- Irrigation, normal saline and tap water comparison, wounds, 379-381
- Irrigation pressure, wound infection rate and, two new devices, 37-42
- Jugular vein, internal, ultrasound-assisted catheterization, ED, 401-403
- Kawasaki syndrome, delayed cardiovascular sequelae from, 579-581
- Ketoacidosis, alcoholic, reversible myocardial dysfunction in, 371-373
- Ketorolac tromethamine, sublingual hyoscyamine sulfate and, relief of renal colic, 557-560
- Kidney  
blunt trauma, retroperitoneal organ injury, CT value in, 225-227  
ruptured angiomyolipoma, presenting as renal colic, 658-661
- Laboratory tests, emergency physician ordering of, information sharing effects on, 34-36
- Laryngectomy, foreign body aspiration in (letter), 103-104
- Law enforcement, in intimate partner violence, University ED, 60-63
- Left bundle branch block, acute MI in, ECG diagnosis, 697-700
- Left ventricular hypertrophy, chest pain patients, 692-696
- Leukocytes, serum indicator of myocardial infarction, exercise-induced muscle injury, 107-113
- Lidocaine  
administration, pain reduction through buffering and warming, 353-356  
EMLA cream, pain reduction in peripheral IV cannulation in ED, 634-636
- Likelihood ratios, diagnostic tests (letter), 722-723
- Lingual abscess, mimicking epiglottitis, 414-416
- Lisinopril, rechallenge, acute pancreatitis following, 523-524
- Lithium, overdose, hemodialysis in, rebound after (letter), 98-100
- Lung, pigeon-breeders or bird-fancier's, shortness of breath, pet cockatiel, 285-288

- Lyme disease, carditis, presentation in ED, 265-269  
 Lymphocytes, serum indicator of myocardial infarction, exercise-induced muscle injury, 107-113
- Mace, dermatitis, treatment with topical antacid suspension (letter), 613-614  
 Magnetic resonance angiography, mycotic aneurysm, subclavian artery, 714-716  
 Magnetic resonance imaging, limited, diagnosis of occult hip fractures, 390-392  
 Malpractice, involuntary confinement of psychiatric patients, medico-legal errors in the ED, 631-633  
 Mandibular fractures, clinical predictors of, 304-305  
 Medicolegal errors, involuntary confinement of psychiatric patients, ED, 631-633  
 Meigs' syndrome, pseudo, 404-405  
 Melatonin, adaptation to night shift and, 367-370  
 Meningitis, coincident, intracerebral hemorrhage and, unresponsiveness adult, 576-578  
 Methanol, poisoning, duration of hemodialysis in, 538-540  
 Methemoglobinemia, infancy (letter), 723-724  
 Methergine, myocardial infarction induced by, postpartum, 502-504  
 Microbiology, aerobic and anaerobic, infection after trauma, 585-591  
 Midazolam, pharmacoeconomic assessment, two EDs (letter), 616-617  
 Mini-mental status examination, evaluation of the elderly, ED, 686-689  
 Models, rat, asphyxial cardiac arrest, mild hypothermia for, 17-25  
 Mood, melatonin effects, adaptation to night shift, 367-370  
 Motorcycle accident analysis, Germany, 320-323  
 response time, prehospital care, 711-713  
 Motor vehicle accidents  
     air bag deployment, hyphema and, pediatric trauma patient (letter), 102-103  
     air bag-related burns, pediatric patient (letter), 438-440  
 Muscle, skeletal, injury, exercise-induced, serum indicators of myocardial infarction after, 107-113  
 Mycotic aneurysm, subclavian artery, presenting as mediastinal abscess, 714-716  
 Myocardial infarction  
     acute  
         electrocardiography, 409-413  
         intravenous beta-blockers in, editorial, 623-626, 720-721

     serum indicators of, exercise-induced muscle injury, 107-113  
 Myocardiun  
     irritability, electrocardiography, 417-419  
     posterior wall, acute infarction, electrocardiography, 409-413  
 Naphtha, subcutaneous injection, skin necrosis and venous thrombosis from, 508-511  
 Nasogastric intubation, esophageal perforation as a complication of, 64-66  
 National Health Insurance, impact on ED use, 92-94  
 Nebulizer, salbutamol, severe asthma treatment, ED, 637-642  
 Needles, intraosseous placement, pediatric, Jamshidi versus Cook, 420-421  
 Neonate, disseminated herpes simplex infection, 376-378  
 Neuroleptic malignant syndrome, early signs of (letter), 95-96  
 Neuromuscular blocking agents, success rate of airway intubation with, 125-127  
 Neuropathy, ischemic, acute aortic dissection presenting as numbness, 49-51  
 Neutropenia, thrombocytopenia and, associated with oral acyclovir, 396-398  
 Nitrates, high-dose, treatment of unstable angina, 219-224  
 Norcocaine, ingestion, seizures and, 529-533  
 Omeprazole, acute hepatitis induced by (letter), 550-551  
 Oropharyngeal suction, large-diameter tubing, evacuation time of simulated vomitus, 242-244  
 Otolaryngology, tracheostomy, emergency care, 681-685  
 Outcomes, response times and, cardiac arrest in Las Vegas casinos, 249-253  
 Outpatient management, croup, nebulized racemic epinephrine in, 87-89  
 Overdose  
     amlodipine, prolonged calcium channel blocker toxicity, 527-528  
     chloral hydrate, acute gastric perforation in (letter), 545-546  
     chlorzoxazone, coma and, reversal with flumazenil, 393-395  
     colchicine, fatal, 603-608  
     flecainide, hypertonic sodium bicarbonate in, 534-537  
     fluoxetine, generalized seizures caused by (letter), 328-329  
     ibuprofen, severe agitation and hypothermia (letter), 549-550  
     risperidone effects in, 498-501  
 Oxymetazoline, topical, pseudoephedrine comparison, barotrauma during air travel, 262-264  
 Pain  
     acute, self-assessment in the ED, comparative study of, 132-136  
     control, after discharge from ED, 705-707  
     local anesthetic infiltration (letter), 617  
     measurement, buffering and warming in lidocaine administration, 353-356  
     migratory, in appendicitis (letter), 437-438  
     scrotal, diverticulitis presenting as (letter), 618-619  
     shoulder, radiographs in evaluation of, ED, 560-563  
     urethral and intravenous catheterization (letter), 327  
 Pallor, severe unrecognized, respiratory distress and, 386-389  
 Pancreatitis, acute, after lisinopril rechallenge, 523-524  
 Parafon forte. see Chlorzoxazone  
 Parenteral administration, antibiotics, overuse in urban ED, 343-345  
 Paresthesia, left lower extremity, acute aortic dissection presenting as, 49-51  
 Peak expiratory flow rate, speaking time comparison, acute exacerbation of asthma, 572-575  
 Pediatrics  
     air bag-related burns, lower extremity (letter), 438-440  
     death in the ED, coping, learning from parental experience, 67-68  
     disseminated herpes simplex, neonate, 376-378  
     febrile children, at risk for occult bacteremia, decision analysis, 193-207  
     hypoglycemia, presenting as respiratory failure, infant, 281-284  
     intraosseous needle placement, Jamshidi versus Cook, 420-421  
     methemoglobinemia in infancy (letter), 723-724  
     myocardial infarction in children, 296-303  
     preexcitation in infancy and childhood, 188-190  
     respiratory distress, severe unrecognized anemia and, 386-389  
     stroke in patient with sickle cell trait (letter), 104-105  
     trauma, hyphema associated with air bag deployment (letter), 102-103  
     urinary tract infection, fever and, 643-647  
 Periodicity, assaults from penetrating trauma, State of Illinois, 553-556  
 Peritoneal dialysis, continuous ambulatory, rupture of amyloid spleen in, 279-280  
 pH, adjustment, bupivacaine, temperature and, intradermal anesthesia, 117-120

- Pharmacoeconomics, midazolam, two EDs (letter), 616-617  
Pharmacokinetics, determination of hemodialysis duration, methanol poisoning, 538-540  
Physical abuse, partner, nonbattering presentations to the ED, 128-131  
Physostigmine, treatment  
  anticholinergic poisoning, 505-507

  discrepancies in interpretation, callbacks in the ED due to, 160-162  
  evaluation of shoulder pain, ED, 560-563  
Rape, adult victim, colposcopy in evaluation of, 183-184  
Rapid sequence induction, for intubation, aeromedical transport team, 598-602  
Renal colic  
  ruptured angiomyolipoma presenting as, 658-661  
  sublingual hyoscymine sulfate, intravenous ketorolac tromethamine and, 557-560  
Repolarization, benign early, differentiation from other ST segment elevation syndromes, 592-597  
Research, barbaric medicine, 208  
Residents. *see* Emergency medicine residents  
Respiration, artificial, cardiac arrest as sequelae of, 609-612  
Respiratory distress, severe unrecognized anemia and, children, 386-389  
Respiratory failure, acute, hypoglycemia presenting as, infant, 281-284  
Respiratory illness, repeated ambulance use by patients with, 141-144  
Response time  
  outcomes and, cardiac arrest, Las Vegas casinos, 249-253  
  reduction of, prehospital care, motorcycle accident, 711-713  
Resuscitation, prehospital cardiac arrest, Japan, factors for survival, 209-213  
Risperidone, effects in overdose, 498-501  
Rural trauma center, alcohol-related trauma patients in, 228-231  
  
Sagittal sinus, superior, thrombosis, after closed head injury, 382-385  
Salicylate, ingestions, test for qualitative determination (letter), 546  
Saline, normal, tap water comparison, for wound irrigation, 379-381  
Scapula, dislocation, 690-691  
Scopolamine, poisoning/toxicity, treatment with physostigmine, 505-507  
Seizure disorder, repeated ambulance use by patients with, 141-144  
Seizures  
  generalized, fluoxetine overdose (letter), 328-329  
  multiple, cocaine-related, 529-533  
Self-assessment, acute pain, in the ED, comparative study, 132-136  
Sexual assault, adult victim, colposcopy in evaluation of, 183-184  
Shock  
  resuscitation, rapid intravenous access in, 293-295  
  significance of initial spun hematocrit in, 150-153  
Shoulder  
  injury, scapular dislocation, 690-691  
  pain, radiographs in evaluation of, ED, 560-563  
Sickle cell trait, stroke and, 9-year-old patient (letter), 104-105  
Single-breath counting, for bronchospasm, ED (letter), 100-101  
Skin necrosis  
  subcutaneous naphtha injection, 508-511  
  warfarin-induced, 541-543  
Sleep, melatonin effects, adaptation to night shift, 367-370  
Sodium, serum electrolyte disorders, algorithms for diagnosis, 76-84  
Sodium bicarbonate, hypertonic, for flecainide overdose, 534-537  
Soft tissue, prevertebral, measurement at C3, cervical spine fractures and dislocations, 346-349  
Speaking time, comparison with peak expiratory flow rate, acute exacerbation of asthma, 572-575  
Spleen, amyloid, spontaneous rupture, continuous ambulatory peritoneal dialysis patient, 279-280  
Standard of care  
  defibrillation, in sudden cardiac arrest, editorial 325-325, 315-319  
  legal, evolving clinical practices and (editorial), 325-326

- Staphylococcus aureus*, infection after trauma, 585-591  
 Stress fracture, humerus, ball thrower, 306-308  
 Stroke, sickle-cell trait and, 9-year-old patient (letter), 104-105  
 ST segment, elevation  
     benign early repolarization differentiation from, 592-597  
     electrocardiography left ventricular hypertrophy in chest pain, 692-696  
 Subclavian artery, mycotic aneurysm, presenting as mediastinal abscess, 714-716  
 Suction systems, large-diameter tubing, vomitus evacuation time, 242-244  
 Suicide  
     intradermal hydrofluoric acid, systemic and topical effects, 521-522  
     means restriction education, implementing in urban EDs, 257-261  
 Surgery, esophageal perforation, from nasogastric intubation, 64-66  
 Swelling, soft tissue, prevertebral, for detection of cervical spine fractures, 346-349
- Tachycardia  
     reentrant, preexcitation in infancy and childhood, 188-190  
     supraventricular  
         electrocardiography, 417-419  
         sequelae from Kawasaki syndrome, 579-581  
         ventricular, electrocardiography, 417-419
- Tachypnea, severe unrecognized anemia, respiratory distress and, children, 386-389
- Takayasu's arteritis  
     presenting as amaurosis fugax, 185-187  
     unusual case of abdominal pain (letter), 96-98
- Technology, future of emergency medicine, 710
- Temperature, pH adjustments of bupivacaine and, intradermal anesthesia, 117-120
- Thoracotomy, bush, Papua New Guinea, 717-719
- Thrombocytopenia  
     neutropenia and, associated with oral acyclovir, 396-398  
     thrombotic purpura, presenting as expressive aphasia, 270-271
- Thromboembolism, diagnosis, alveolar-arterial oxygen gradient in, 333-337
- Thrombosis, superior sagittal sinus, after closed head injury, 382-385
- Thrombotic thrombocytopenic purpura, acute, presenting as expressive aphasia, 270-271
- Time series analysis, ambulance run volume, 232-237
- Torsades de pointes, electrocardiography, 417-419
- Toxic ingestions  
     crack cocaine, seizures and, 529-533  
     gastrointestinal decontamination by EMS personnel, 114-116
- Toxicity, fatal colchicine overdose, 603-608
- Toxicology, risperidone effects in overdose, 498-501
- Tracheal intubation, occlusion, after oral intubation with Endotracheal tube, 276-278
- Tracheitis, emergency care of tracheostomy, 681-685
- Tracheostomy, emergency care, 681-685
- Training, CPR, skill mastery in, 653-657
- Trauma  
     abdominal, blunt, intussusception after, 671-673  
     alcohol-related, rural trauma center, 228-231  
     annotated bibliography of the literature, 425-434  
     blunt, intraabdominal injuries, injuries distracting from, 145-150  
     cervical spine fractures, prevertebral soft tissue measurement at C3 for, 346-349  
     closed head injury, superior sagittal sinus thrombosis after, 382-385  
     infection after, aerobic and anaerobic microbiology, 585-591  
     motorcycle accidents, Germany, 320-323  
     penetrating  
         assaults, State of Illinois, 553-556  
         needle infix in heart, 662-663  
         retained glass in wounds, 627-630  
         personnel staffing and scheduling, time series analysis of ambulance run volume, 232-237  
         renal, retroperitoneal organ injury, CT value in, 225-227  
         rugby injuries (letter), 327-328  
         severe chest and minor head, basilar artery occlusion after (letter), 614-616  
         spinal, atlanto-occipital dislocation, unrecognized, 406-408  
         trivial, internal carotid artery dissection from vomiting, 669-671
- Triage  
     ED classifications, routine pulse oximetry measurements in, 5-7  
     nurse and physician, correlation of ED test ordering, 8-11
- Ultrasonography  
     catheterization assisted by, jugular vein, ED, 401-403  
     localization of foreign body, urinary bladder (letter), 329-330
- Urinary tract infection, febrile children, management of, 643-647
- Urticaria, periorbital, topical fluoresceins and, 525-526
- Utzstein style, cardiac arrest, witnessed by EMS personnel, outcome, 12-16
- Venous access device, pleural effusion, unusual presentation in the ED, 163-165
- Venous thrombosis, subcutaneous naphtha injection, 508-511
- Ventilation, mechanical, oral intubation with Endotracheal tube, 276-278
- Ventricular fibrillation, outcome, cardiac arrest in Las Vegas casinos, 249-253
- Vertebral artery, dissection, after chiropractic manipulation (letter), 619-620
- Vietnam, emergency health services in, 422-424
- Violence. *see also* Domestic violence
- Vomiting, internal carotid artery dissection, 669-671
- Vomitus, evacuation, large-diameter suction tubing and evacuation time, 242-244
- Warfarin  
     skin necrosis induced by, 541-543  
     spontaneous bilateral arytenoid hematoma with, 674-676
- Water, tap, normal saline comparison, for wound irrigation, 379-381
- Weather  
     ice storm, falls after, fractures and other injuries seen, 52-55  
     unfavorable, nature of visits to pediatric ED, 374-375
- Wellness, melatonin effects, adaptation to night shift, 367-370
- Wound, infection. *see* Infection
- Wound irrigation, new devices, infection rate and irrigation pressure, 37-42
- Wounds and injuries  
     blunt trauma, softball, carotid artery dissection caused by, 179-182  
     falls, after an ice storm, 52-55  
     intraabdominal, after blunt trauma, injuries distracting from, 145-150  
     lacerations, comparison of topical anesthetics, 121-124  
     normal saline and tap water comparison, 379-381  
     retained glass foreign bodies, ED, 627-630
- Xiphodynia, masking acute myocardial infarction, 177-178
- X-ray. *see* Radiography
- Zinc ointment, anaphylaxis to, 512-513
